

The Fixturlaser Laser Kit

• Verti-Zontal Moves

• Pre-Mounted Sensors

• Auto Connection

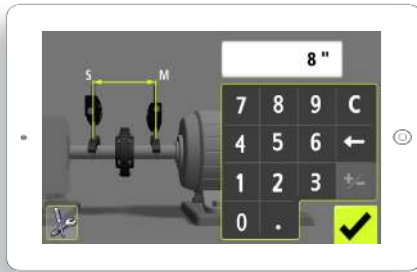

The FIXTURLASER Laser Kit is a completely wireless system, featuring two sensor units that pair via Bluetooth to your Android or iOS device running the free Laser Kit app. Available for direct purchase at an affordable price, the Laser Kit makes hassle-free horizontal shaft alignment more accessible than ever.

The Laser Kit is ready to use as soon as you get it. The wireless sensor units come pre-mounted on their bracket fixtures and use line lasers to expedite the initial setup process. Download the free app from the iTunes or Google Play store, turn on the sensor units, and enable Bluetooth on your device to allow the Laser Kit to pair automatically.

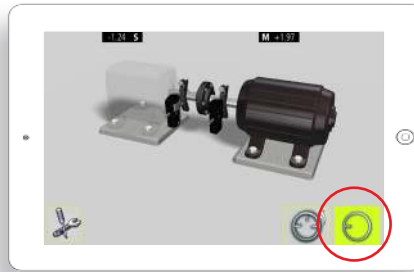

The Laser Kit provides the most essential alignment functionality demanded by the maintenance industry. The FIXTURLASER Laser Kit is a perfect entry-level solution for facilities that need to align small scale machines with the efficiency of a high-end alignment system, without having to pay the high-end price.

Laser Kit Features

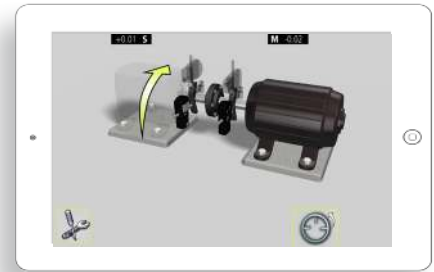

Colorful, motion animated graphics • 100% Graphical user interface • The ability to save results data

Enter the dimensions.

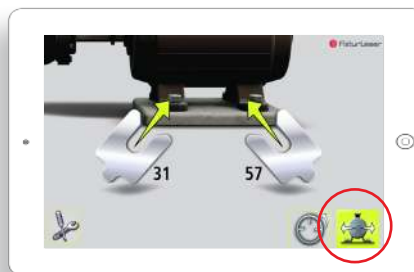

Rotate the sensors to the 9:00 position and press the measurement icon.

Rotate the sensors to the 12:00 position. Press the measurement icon again to take the second measurement.

Rotate the sensors to 3:00, measure. The results will be displayed on screen.

Correct vertically then press the "live reading icon"...

...to correct horizontally with live values. Verify your corrections by remeasuring.
